Chicago, Illinois 60607

Donna focuses on procurement strategy and has 15 years of systems implementation experience. Her procurement system experience includes PeopleSoft, SciQuest and Ariba implemented across a wide variety of industries including higher education, public sector and health care.

### Professional Experience

Representative examples of Donna's engagement experience include:

Led SciQuest upgrade strategy for large university in the Southeast. Conducted needs assessment and delivered an implementation toolkit, training and communications plan.

Led comprehensive assessments of procurement programs at several universities resulting in significant transformation in procurements design, business processes and information technology. Provided subject matter leadership during eProcurement implementation.

Worked with public institutions to develop operational and training plans to support the vision for growth in the procurement enterprise. Delivered training plans, cubiculum, class room materials and self-paced training aides.

Led eprocurement implementations for academic medical schools, private and public universities. Provided PeopleSoft supply chain subject matter expertise related to Purchasing, eProcurement, Payables, and Inventory.

Led assessments to review eProcurement and eSettlement opportunities, resulting in implementation recommendation.

Implemented procure-to-pay training programs for university and private sector clients, resulting in improved user adoption and utilization.

Led workflow assessment and future state planning for an organization to enhance its procurement approval process and compliance efforts. Assessment resulted in project roadmap to enable paperless and smart device approvals.

Assessed PeopleSoft utilization for public and private universities. Defined gaps with respect to procurement, settlement and encumbrance processing. Delivered roadmap for application configuration changes required to support business requirements.

Assisted private university to implement applicable Sarbanes-Oxley best practices.

Assisted both universities and private systems to implement procurement card solutions, improve controls and increase user adoptions.

Designed application readiness and PeopleSoft procurement testing model for enterprise that allowed technical staff to create system upgrade plan with appropriate resources and reduced timeline.

Developed eProcurement workflow routings and diagnostics to evaluate transaction processing time and identify potential improvement opportunities for research departments, resulting in paperless procure to pay approval process.

### Education

- Bachelor of Arts, Communications, University of North Florida, Jacksonville, Florida
