John provides consulting services to leading universities and research institutions.

Professional experience

Prior to joining Huron Education, John gained valuable experience in the global higher education arena through his graduate coursework at the University of Michigan

- Completed an extensive feasibility analysis for the development of a new university to be located in Ireland.
- Conducted interviews and completed other necessary research to provide recommendations on the optimal new-university focus and structural makeup.
- Provided additional information on education delivery technology systems, blended learning strategies, and international student preferences from various regions of the globe.

John also spent three months working as an accountant for the Pheasant Run Resort in St. Charles, IL where he was responsible for reconciling capital project accounts, maintaining various revenue accounts and responding to customer inquiries.

Representative examples of John's engagement experience include:

- Performed research and compiled best practices related to an institution's long-term conversion to shared service centers in university financial functions.
- Assisted in sequencing reporting and budgeting, resource optimization, process improvement, and organizational restructuring initiatives to successfully streamline finance functions across the university over a five year timeframe.

Education and certification

- Master of Accounting, University of Michigan, Ann Arbor, Michigan
- Bachelor of Arts, Accounting and Business Administration, Monmouth College, Monmouth, Illinois

Professional associations

- CPA Candidate Member, American Institute of Certified Public Accountants
